MONTHLY REPORT

Vice President for Academic Affairs Kristina Lopez
July 2012

Project Updates:

• College Town Halls: emails have been sent to the deans of each of the seven colleges. So far I have heard back from four (Bouve, CBA, Arts, Media & Design, and Science) I have had positive feedback from Engineering but will wait for the new Dean to be settled into office before setting up a meeting. I am still waiting to hear back from the colleges of Computer Science and Social Sciences and Humanities. The responses I have heard have all been positive, the people with whom I have spoken to all seem to be excited about working with SGA and open to hearing our thoughts and ideas.

• College Expectation Report: the Ad-Hoc committee submitted a report at the end of the spring 2012 semester with some areas that still needed to be filled in. I have been working to fill in the missing spots and will have the report ready for the first meeting of the recently re-established college expectations ad-hoc committee in the fall.

• Student Outreach: one of the goals I had listed on my candidate sheet was to reach out to different academic groups to see if they had any concerns or thoughts but mostly to know that we are a resource for them. I want these student organizations to know that SGA is a resource to them but specifically these academic groups to know that they are always welcome in my committee and to come to me with any concerns or thoughts they have. The ultimate goal would be to have some of these students come to committee and add a different perspective to the group.

Scheduled Meetings:

• At the current moment I have meetings waiting to be confirmed with the Deans of Bouve, Business, Arts, Media and Design and Science as well as several others that have not been finalized. However, until I have confirmed housing these meetings will be put off until the end of the month.

Individual Concerns:

• In reaching out to this past years committee and noticing that a number of students will not returning, I am concerned about being able to fill all open seats for various sub-committees and faculty committees. I am looking forward to reaching out to potential new members to fill those seats.
